You may also have other rights that vary from state to state.

ODOR DISCLAIMER: Should you notice a slight odor when unpacking your new, specialty sleep item, do not be alarmed. In some instances, the packaging process and/or the new product manufacturing process may emit a new product odor. This odor is harmless and will dissipate generally within twenty-four (24) to forty-eight (48) hours, depending on the air temperature and the amount of ventilation in your room. This process can be aided by increasing ventilation by opening a window and/or adding a fan.

CARE RECOMMENDATIONS AND WASHING INSTRUCTIONS: Please refer to care instructions sewn on product for additional information. ALWAYS follow the Care Instructions Label sewn onto your new Healthcare sleep product. Failure to do so may potentially void your warranty coverage.

Congratulations on the purchase of your amazing sleep solution product from Healthcare Consumer Products. Memory Foam and Fiber products are temperature sensitive. Shipping these products during the cold winter months may cause your product to feel too firm or hard upon arrival. Please unwrap the product and allow it to rest for a minimum of 48 hours at room temperature in order to acclimate. Most memory foam products are wrapped and sealed immediately following the manufacturing process and have not had time to breathe. You may notice a slight odor when you unpack your products. This is normal for "fresh foam" and will dissipate. Your memory foam product may appear to be out of shape at first, it will recover its normal shape in time.
